

Chair of the Defence Nuclear Safety Committee announced to speak at SMi Group's 4th Annual Defence Safety Conference

SMi Group reports: The Chair of the Defence Safety Nuclear Safety Committee has been announced to speak at the Defence Safety conference in London this October.

LONDON, LONDON, UNITED KINGDOM, June 25, 2021

/EINPresswire.com/ -- Featuring high-level briefings from senior leaders from 10 nations and covering the broad spectrum of safety across the military aviation, land and maritime domains, the [Defence Safety Conference](#) taking place on the 4th and 5th October 2021 in London, will provide a valuable forum to discuss how to improve the protection of lives and capability.

For commercial organisations, it is £1499 and for all active government personnel, it is free to register. There is a £200 early bird saving ending June 30th. Register at <http://www.defencesafety.com/PR2>.

SMi Group is delighted to announce that Professor Andrew H. Sherry FEng, FNucl, FIMMM will be providing an in-depth briefing at Defence Safety 2021 on 'Improving Safety through Simplification', which will cover:

- Progressive increase in the complexity of safety demonstration
- Culture of Compliance vs. Culture of Internal Challenge
- Incorporate Haddon-Cave's Four principles of good safety
- Delivery of safe and also efficient programmes

The banner features a dark purple background at the top with the SMi logo and tagline 'LINKING BUSINESS TO INFORMATION'. Below this, the text 'Defence Aviation Safety Conference' is written in large white font, followed by '21st - 22nd April 2021 | Virtual Event'. The central image is a globe with a blue and white grid, overlaid with several fighter jets in flight. At the bottom, a dark purple bar contains the website 'www.defenceaviationsafety.com' and the text 'Defence Aviation Safety Conference 2021'.

Professor Andrew H. Sherry FREng is the Chair of the Defence Nuclear Safety Committee and Director of Science at the Henry Royce Centre for Advanced Materials at the University of Manchester. He has 35 years' experience leading science & innovation, skills, and infrastructure across industry, national laboratories and academia. Andrew provides independent expert advice on strategy, technical and safety aspects of nuclear power to government, industry and international organisations.

The two-day event will offer delegates the opportunity to show commitment to safety and join over 200 other senior leaders from across the armed forces and industry to collaboratively raise the importance of safety higher on the defence agenda.

The newly released brochure is now available at <http://www.defencesafety.com/PR2>.
