

TASME2021: International Virtual Conference on July 3-4

Over 270 presentations with over 550 authors/co-authors, with five parallel sessions for two full days including panel discussion, workshops etc.

BOSTON, MASS, USA, June 28, 2021

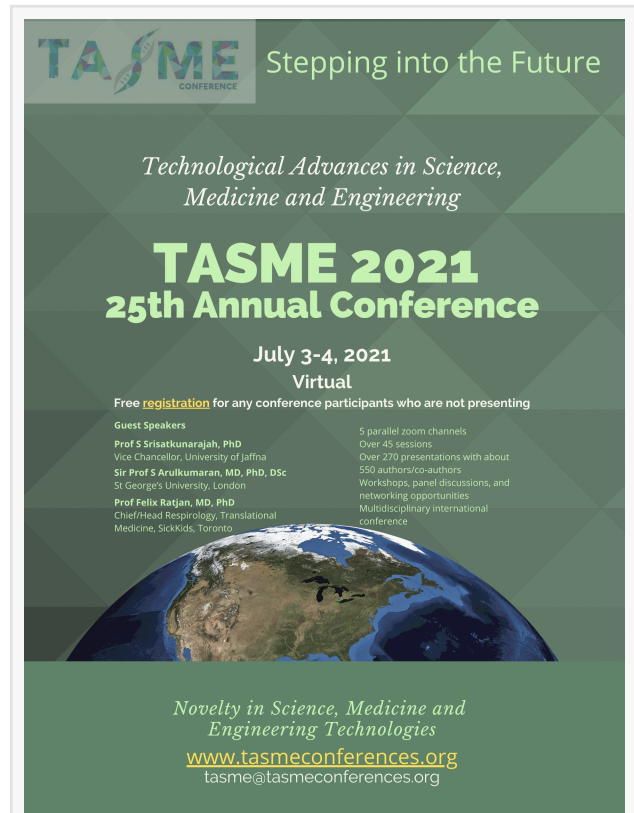

/EINPresswire.com/ -- This message was posted by Tamil Diaspora News to honor TASME's Silver Jubilee celebration. We congratulate TASME for their scientific investment among the Tamil Diasporas.

TASME2021: International Virtual Conference on July 3-4

Dear All,

The 25th Technological Advances in Science, Medicine, and Engineering conference (TASME2021) will be held in virtual format on July 3-4, 2021. This is a unique international conference dedicated to highlight advancements in Science, Medicine, and Engineering. The aim of this conference is to bring researchers, professors and university students from both academia and industry together to share new knowledge, and foster and strengthen collaboration. This conference provides an ideal opportunity to meet fellow members from multidisciplinary scientific community.

This year, our participants range from professors, MDs, postdoctoral fellows, graduate students (MSc, PhD, MD/PhD) and undergraduate students. We are committed to bringing together the best talents from our scientific community and fostering their growth. We hope that you will benefit from this year's conference. Advances in fields of medicine, science and engineering in the last decade have greatly impacted the growth in medicine and other related fields including immunology, cancer, maternal-child health, mental health, healthcare systems and information technology. Multidisciplinary approach helps to devise novel treatment strategies for medicine and various other fields

The poster for the TASME 2021 25th Annual Conference features a green geometric background. At the top left is the TASME logo with the word 'CONFERENCE' underneath. To the right of the logo is the tagline 'Stepping into the Future'. Below this, the text 'Technological Advances in Science, Medicine and Engineering' is written in a smaller font. The main title 'TASME 2021 25th Annual Conference' is prominently displayed in large, bold, white letters. Below the title, the dates 'July 3-4, 2021' and the word 'Virtual' are shown. A line of text states 'Free registration for any conference participants who are not presenting'. On the left side, under 'Guest Speakers', three names are listed: Prof S Srisatkunarah, PhD (Vice Chancellor, University of Jaffna), Sir Prof S Arulkumaran, MD, PhD, DSc (St George's University, London), and Prof Felix Rajan, MD, PhD (Chief Head Respiratory, Translational Medicine, SickKids, Toronto). On the right side, a list of features includes '5 parallel zoom channels', 'Over 45 sessions', 'Over 270 presentations with about 550 author/co-authors', and 'Workshops, panel discussions, and networking opportunities'. A central image shows a view of the Earth from space, focusing on the Atlantic Ocean and parts of North and South America. At the bottom, the text 'Novelty in Science, Medicine and Engineering Technologies' is followed by the website 'www.tasmeconferences.org' and the email 'tasme@tasmeconferences.org'.

TASME2021: International Virtual Conference on July 3-4

This is a great opportunity for all to participate without the hassle of travel and from home. To register for the conference go to the link below and click on registration:

<http://acamedics.com/conferences/tasme/2021/index.php/tasme/tasme2021>

- Professional and student presenters need to register to present and to publish their work in the conference proceedings.
- Free registration for first-time presenters. Please contact us for the fee waiver code.
- Free registration for any conference participants who are not presenting.

This year we have over 270 presentations with over 550 authors/co-authors, with five parallel sessions for two full days including panel discussion, workshops, and networking opportunities.

We appreciate your active participation. For info please visit our website:
