on this prestigious and definitive listing. The Channel Futures MSP 501 survey examines organizational performance based on annual sales, recurring revenue, profit margins, revenue mix, growth opportunities, innovation, technology solutions supported, and company and customer demographics. Managed services providers that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures that rank applicants using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue, and operational efficiency.

Channel Futures is pleased to name PCH Technologies to the 2021 MSP 501. “This year, the team has continued to deliver the highest quality cybersecurity and IT solutions to our clients while focusing on continuous improvement of operational procedures to allow us to scale,” said Timothy Guim, President and CEO of PCH Technologies. “I am honored and humbled to be recognized among other top performing Managed Service Providers globally.” This year’s list

Since its inception, the MSP 501 has evolved from a competitive ranking into a vibrant group of innovators focused on high levels of customer satisfaction at small, medium, and large organizations in the public and private sectors. Today, many of their services and technology offerings focus on growing customer needs in the areas of cloud, security, collaboration, and support of hybrid workforces. "The 2021 Channel Futures MSP 501 winners are the highest-performing and most innovative IT providers in the industry today. They stand head and shoulders above the competition," said Robert DeMarzo, vice president of content for the Channel Futures and Channel Partners Conference & Expo division of Informa Tech Channels.
