Doctors In Politics

In their endorsement, the Doctors in Politics PAC wrote, "Doctors in Politics is proud to endorse Dr. Gillian Battino for U.S. Senate, Wisconsin.

Dr. Battino's experience and training as a physician are exactly what we need in government leadership. Over the last few years, we have seen the harm to our fellow

Americans when science is not front and center in policy decisions. Now more than ever, we need leaders who understand how to create policy based on sound science and data.

Dr. Battino understands the importance of healthcare and will advocate helping create a system that is fair and equitable to all. As a nation, we have never experienced a health care crisis as severe as we have faced with COVID. We desperately need leaders with the experience and wisdom to address these challenges. Wisconsin deserves a champion like Dr. Battino to advocate for them."

Gillian Battino said, "I am honored and proud to be endorsed by Doctors in Politics. I am committed to centering science and data in policy as I work for the health, dignity, and freedom of the American people. I look forward to working with Doctors in Politics to build a people-

based movement for a new kind of politics and a Brighter Tomorrow."
