

Enuit Successfully Completes SOC® 2 Type 1 Examination, Reinforcing its Commitment to Data Security

HOUSTON, TX, UNITED STATES OF AMERICA, July 1, 2021

/EINPresswire.com/ -- Enuit Inc, an award-winning provider of enterprise risk management ([ETRM](#) / [CTRM](#)) solutions for energy and commodities trading companies worldwide, today announced that it has successfully completed [SOC 2](#) Type 1 Service

Organization Controls (SOC) examination. The examination affirms Enuit's long-standing commitment to data security practices and its customers that trust Enuit to secure, control, and efficiently manage their sensitive data.

Chunxing Shen, Enuit's CIO said, "Completion of a successful SOC 2 examination will greatly strengthen the existing and potential clients' confidence in Enuit. I would like to thank our team for their hard work over the last several months and 360 Advanced to achieve this goal."

He continued, "Working with 360 Advanced and other security consultant firms on our SOC 2 demonstrates Enuit's determination to provide secure and reliable software, hosting and SaaS services to our clients, and to help reduce their total cost of ownership of C/ETRM software."

Enuit selected 360 Advanced, Inc. to perform the demanding third-party examination and was audited against the AICPA Trust Services Criteria. The examination provided assurance about the suitability of the design of the company's controls in their description, to meet the selected trust services criteria, at a point in time.

About Enuit
