Companies

BEIJING, CHINA, July 1, 2021  
/EINPresswire.com/ --

Galaxy Magnesium, a leading magnesium producer in China, has announced that it will support the development of electric vehicles (EVs) and green principles. The company has established a special fund to support the research and development of EV technology and the promotion of green principles. Galaxy Magnesium is committed to providing high-quality magnesium products and services to support the sustainable development of the global economy.

Galaxy Magnesium has a production capacity of 1410 thousand tons per year. The company's products are widely used in various industries, including automotive, aerospace, and construction. Galaxy Magnesium is also committed to environmental protection and social responsibility. The company has implemented a series of measures to reduce its carbon footprint and improve its social performance.

Galaxy Magnesium is committed to providing high-quality magnesium products and services to support the sustainable development of the global economy.

“

Galaxy Magnesium is committed to providing high-quality magnesium products and services to support the sustainable development of the global economy.

”

Magnesium: light, strong, durable, versatile, green

The symmetrical crystal structure of magnesium binds easily with other elements to form a wide array of useful alloys.
