

# Rostec to Present COVID-globulin for COVID-19 Treatment at Innoprom

MOSCOW, RUSSIA, July 6, 2021 /EINPresswire.com/ -- [Rostec](#) will present over 300 samples of various civilian products for healthcare and other industries at the Innoprom-2021 International Industrial Fair, including the original COVID-globulin medicine used for the treatment of coronavirus infection.

The corporation's unified exposition will showcase several new types of medicine and medical equipment, such as refrigerators for storing and transporting vaccines, thermal imagers, resuscitation equipment and a series of products for treating patients with COVID-19. The latter include the COVID-globulin, the world's first registered medicine based on blood plasma of people who have already undergone coronavirus infection.

COVID-globulin is currently undergoing clinical trials in Moscow clinics. Studies have confirmed its safety, total absence of side effects and its ability to neutralize the virus. The medicine contains antibodies to the virus, and it helps the body to overcome the disease and "teaches" the immune system to quickly create its own antibodies. Clinical trials are scheduled to finish by the end of 2021.

The Yekaterinburg fair will also include Rostec's new products for the transport industry, construction, geological exploration, energy, environmental monitoring and industrial security.

The exhibition will be attended by the following Rostec subsidiaries: National Immunobiological Company (Nacimbio), Shvabe, Concern Radio-Electronic Technologies (KRET), KRHZ, Tecmash, Uralvagonzavod, VSMPO-AVISMA, KAMAZ, Concern Kalashnikov and UEC.

The Innoprom International Industrial Fair is the main industrial, trade and export platform in Russia. Italy will act as the partner country of the exhibition in 2021. Innoprom-2021 is organized at the Yekaterinburg-Expo International Exhibition Center from 5 to 8 July 2021.
