

# Solve.Care Joins The Government Blockchain Association

*Healthcare platform company to work together with a global network of experts, government agencies, researchers, and academia to advance the use of blockchain*

FAIRFAX, VIRGINIA, USA, July 6, 2021 /EINPresswire.com/ -- [Solve.Care](#), the healthcare technology platform company leveraging blockchain to change the way we deliver and manage patient care, is now an official member of [The Government Blockchain Association](#) (GBA). The GBA is a non-profit independent association aimed at promoting blockchain technology by empowering individuals and organizations to connect, communicate, and collaborate to solve public sector challenges around the world.

The logo for Solve.Care, with "SOLVE" in a bold, purple font and "CARE" in a lighter purple font. The letter "O" in "SOLVE" is stylized as a target or a network node.

In line with GBA's mission to connect people and organizations with blockchain technology-based solutions, Solve.Care delivers a patient-centric healthcare model, utilizing blockchain technology to address inefficiencies in the healthcare industry and improve access to quality care for everyone. As a member of the GBA, Solve.Care is now part of the largest blockchain association in the world and will work together with a global network of experts, which include government agencies, researchers, and academia, to help promote the adoption of blockchain technology especially for the healthcare sector. The GBA has over 6,000 registered individual and organizational members in 120 cities around the world. The GBA also hosts local meetups of over 40,000 people globally.

Pradeep Goel, CEO of Solve.Care, said, "Blockchain technology provides a real solution to many of the issues we face today. From healthcare to education and the economy to public wellbeing,

blockchain technology will be transformational across many different industries. By joining the Government Blockchain Association, we intend on contributing Solve.Care's expertise to implementing a more equal and effective care to a wider, global audience. Working with a dedicated team of experts, we look forward to leveraging the value GBA offers to promote the technology we believe in, as well as contributing to the association's goals and actions."

Through its membership, Solve.Care will help establish and promote healthcare industry best practices for blockchain technology-related solutions to be adopted for the benefit of society at large, by government agencies in the US and the rest of the world. In addition, the company will have the opportunity to deliver and participate in education, training, and certifications, such as the GBA Blockchain Consulting Certification.

Gerard Dache, Founder and Executive Director of GBA, said, "Our members share a passion for promoting blockchain technology adoption throughout the world, seeing it as a force for good and a solution to many of the issues faced by governments globally. We are excited to welcome Solve.Care, a company that is operating at the vanguard of healthcare and innovation and who has a proven track record of delivering working blockchain solutions that help drive the digital transformation of healthcare and patient delivery."
