On International Day Against Drug Abuse & Illicit Trafficking, the Scientology Network joined drug prevention advocates everywhere to combat the drug epidemic.

LOS ANGELES, CALIFORNIA, UNITED STATES, July 8, 2021 / EINPresswire.com/ -- In support of the UN theme for International Day Against Drug Abuse and Illicit Trafficking 2021, "Share Facts on Drugs, Save Lives," and drug prevention activists who share these facts throughout the year, Scientology Network held a marathon broadcasting event on World Drug Day featuring drug prevention programming the entire day.

Drug prevention advocates featured on Voices for Humanity on the Scientology Network on World Drug Day

Programming included:

*[Voices for Humanity](#), the only ongoing television series dedicated to those working in the streets, schools and communities to combat drugs and other major social ills

*PSAs to raise awareness of the dangers of drug use, and

*[The Truth About Drugs documentary](#), a powerful and comprehensive look into the true dangers of drugs—from marijuana, opioids and synthetic street drugs to the addictive pharmaceuticals marketed with slick Madison Avenue advertising campaigns.

June 26 is set aside annually as World Drug Day. The United Nations Office on Drugs and Crime (UNODC) describes this as "a day to share research findings, evidence-based data and life-saving facts, to continue tapping into a shared spirit of solidarity."

UNODC "invites everyone to do their part, by taking a firm stance against misinformation and

unreliable sources; while committing to sharing only the real science-backed data on drugs and save lives.”

In his message for the day, UN Secretary-General António Guterres urged the world community to take action: “The world drug problem remains an urgent challenge that threatens to exacerbate pandemic impacts and hinder a healthy and inclusive recovery.” He called this year’s World Drug Day theme—Share facts on drugs. Save lives—“a call for solidarity.”

Visitors watching episodes of Voices for Humanity were introduced to drug prevention activists from across the U.S. and such diverse countries as Kenya, the Philippines, Czech Republic and Malaysia.
