

The Death Care Services Industry Sees An Increase In Demand For Green Burials

The Business Research Company's Death Care Services Market Report - Opportunities And Strategies - Global Forecast To 2030

LONDON, GREATER LONDON, UK, July 8, 2021 /EINPresswire.com/ -- Death care services companies are increasingly offering green burials to cater to the increasing demand from customers. In green burials, the body is not cremated and there is no application of chemicals, instead the body is placed in a biodegradable coffin or shroud and interred without a concrete burial vault. The aim is to complete decomposition of the body and its natural return to the soil. The trend is gaining popularity because it is simple, cost effective, eliminates hazardous chemicals, promotes environmental sustainability, and has a spiritual significance. In a 2018 survey from the National Funeral Directors Association (NFDA) it was revealed that about 72% of cemeteries were reporting an increased demand for green burials.

The major players covered in the [global death care services industry](#) are Service Corporation International (SCI), Nirvana Asia Ltd, Fu Shou Yuan International Group.
