

# Global Pipeline Transport Market Trends, Strategies, And Opportunities In The Pipeline Transport Market 2021-2030

*The Business Research Company's  
Pipeline Transport Global Market Report  
2021: COVID-19 Impact And Recovery To  
2030*

LONDON, GREATER LONDON, UK, July  
12, 2021 /EINPresswire.com/ --

According to the new market research  
report 'Pipeline Transport Global  
Market Report 2021: COVID-19 Impact

And Recovery To 2030' published by The Business Research Company, the [global pipeline transport market](#) is expected to grow from \$170.6 billion in 2020 to \$180.3 billion in 2021 at a compound annual growth rate (CAGR) of 6%. The market is expected to reach \$262.1 billion in 2025 at a CAGR of 10%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges.

The pipeline transport market consists of sales of pipeline transportation services and related goods by entities (organizations, sole traders and partnerships) that use transmission pipelines to transport products, such as crude oil, natural gas, refined petroleum products, and slurry.

## Trends In The Global Pipeline Transport Market

Pipeline transportation companies are using augmented reality for efficient maintenance operations. Augmented reality (AR) is the technology of combining real-world images, video, etc. with computer-generated information and/or imagery being viewed through an output including a monitor, headset, etc. AR overlays digital elements onto the physical world, typically using a headset or tablet that the user can point toward real-life objects. In the pipeline transportation industry, AR headsets that clip onto hard hats can project hands-free instructions a technician needs onto equipment to conduct an inspection or maintain a system.
