

Global Truck Transport Market Trends, Strategies, And Opportunities In The Truck Transport Market 2021-2030

The Business Research Company's Truck Transport Global Market Report 2021: COVID-19 Impact And Recovery To 2030

LONDON, GREATER LONDON, UK, July 12, 2021 /EINPresswire.com/ --

According to the new market research report 'Truck Transport Global Market Report 2021: COVID-19 Impact And Recovery To 2030' published by The

Business Research Company, the [global truck transport market](#) is expected to grow from \$1429.2 billion in 2020 to \$1574.6 billion in 2021 at a compound annual growth rate (CAGR) of 10.%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$2132 billion in 2025 at a CAGR of 8%. The truck transportation market growth is aided by stable economic growth forecasted in many developed and developing countries.

The truck transport market consists of sales of truck transportation services and related goods by entities (organizations, sole traders and partnerships) that provide over-the-road transportation of cargo using motor vehicles, such as trucks and tractor-trailers. This market does not include household and office goods transportation services.

Trends In The Global Truck Transport Market

Fleet regionalization is being widely adopted by truck transportation companies to reduce operational costs and increase transportation efficiencies. As a result, companies involved in the truck transportation business are gradually shifting their services from international and national level to the regional level. Regionalization of fleets enables truck transportation companies to increase operational efficiencies and reduce costs, improves driver and truck
