

Global Transit And Ground Passenger Transport Market Trends, Strategies, And Opportunities 2021-2030

The Business Research Company's Transit And Ground Passenger Transport Global Market Report 2021: COVID-19 Impact And Recovery To 2030

LONDON, GREATER LONDON , UK, July 12, 2021 /EINPresswire.com/ --

According to the new market research report 'Transit And Ground Passenger Transport Global Market Report 2021: COVID-19 Impact And Recovery To

2030' published by The Business Research Company, the global [transit and ground passenger transport market](#) is expected to grow from \$412.7 billion in 2020 to \$460.8 billion in 2021 at a compound annual growth rate (CAGR) of 11.%. The growth is mainly due to the companies rearranging their operations and recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The market is expected to reach \$634.9 billion in 2025 at a CAGR of 8%. The transit and ground passenger transportation market growth is aided by stable economic growth forecasted in many developed and developing countries.

of lithium batteries. Further, the technology has low maintenance components allowing the companies to save cost. For instance, Shenzhen in China converted its entire fleet of 16,000 buses to run entirely on electricity. This was made possible by making bus parking roofed with solar panels to enable charging facilities.
