"We help women who are victims and survivors of Domestic Violence and Abuse to have the financial means to leave the abuse and save their lives and the lives of their children and pets. Our company provides remote sales jobs and inbound closing positions to women worldwide who need to have the financial resources to safely and permanently leave their abusers." say's Tristan Bliss.

Excerpt from "Financial Feathers From Heaven: Rebound From Trauma to Personal And Financial Abundance!"

"The financial fishhook

This is most likely not the first time you have left the abuse, but make sure it's the last time you leave.

For many women they go back to the abuse because they fear financial distress will be more devastating than living with abuse.

I'm here to tell you that you now have an option to change your financial outcome and

eliminate that reasoning for having to tolerate living in terror.

I am writing this book to help as many people living in abuse as I possibly can. This is always going to be my life's work in one way or another, but in order to stop this cycle of abuse in society it's going to take more than just writing a book to show you how to get out of poverty to end the cycle of abuse.

It's going to have to start with a complete understanding of where abuse comes from and how to stop it at its core. Not to put a bandage on a gashing wound, but stop the wound from happening before it starts.

Abuse doesn't only happen to families that are living in poverty, abuse happens in every socio economic class. Control is what needs to be broken. Generational patterns that have infected men, women and children that is being passed on and on to the next generation and the next.

We can't change the past, but we can change what happens in the future."
