

Numly™ announces the Launch of Numly SKILLS'future 2021 Program

Unleash the potential for greater performance with Continuous Learning & Coaching on Critical Skills with Certification Programs from leading business schools.

CUPERTINO , CALIFORNIA , USA, July 15, 2021 /EINPresswire.com/ -- Numly™, a leading provider of an AI-enabled, Peer Coaching platform for Critical Skills, is excited to launch the 2021 release of the annual Numly SKILLS'future Program. This program is designed to inculcate a sense of leadership and empower leaders in the making to embrace imminent professional challenges.

Numly™ announces the Launch of Numly™ SKILLS'future 2021 Program

The Numly SKILLS'future [2021 Program](#) helps aspiring leaders unleash their best potential and support organizations to cultivate high-performing teams. The program offers a carefully curated set of online courses from some of the world's best universities and the most reputed Business Schools based on Numly's Data Science Insights. It is a one-stop shop for versatile leaders looking to ramp up their critical skills through in-depth learning about real-world leadership challenges, self-assessments, and 360-degree coaching/feedback from colleagues and peers.

“

Numly SKILLS'future 2021 Program provides the resources to develop the critical skills needed to be an effective leader.”

Tilmin Hudson, WW Vice President, Sales - Numly™, Inc.

Through its Advanced Data Science Research, Numly classifies the four key traits fundamental to true leadership

– being a continuous learner, questioning the status quo, having a growth mindset, and being an innovative problem solver. The Numly SKILLS'future 2021 Program offers carefully selected courses on the Coursera and edX platforms to ensure the development of these critical skills. The courses feature engaging and thought-provoking online certifications to brace the contender for upcoming challenges. The courses are FREE to audit on these platforms and allow registrations for certifications for a small fee. The courses offered under the Numly SKILLS'future

2021 Program are refreshed each year to match the current relevance based on continued insights from Numly Advanced Data Science Research.

Numly's WW Vice President Sales, Tilmin Hudson says, "It is the responsibility of a leader to gain new perspectives in order to continually keep their organizations relevant. It is crucial as a leader to continuously build upon your skills. Whether you are a new leader or a seasoned one, in the post-COVID world, it is time to embrace the opportunity to leverage new insights and develop critical skills. The Numly SKILLS'future 2021 Program provides the resources to develop the critical skills needed to be an effective leader."

Aakriti Agarwal, Director, Customer Marketing at Numly shares her insights - "Every time I interacted with a senior executive leader, I would always wonder how their thought-processes worked. I would ask, how were they able to think differently from the rest of the organization. There had to be a special skill set developed with experience, exposure, and successes that differentiated them. Numly recognizes the exact Critical Skill sets which make those leaders stand out. While it is still considered a nice-to-have skill set, I believe it must soon evolve as a must-have skill set; because all of us, irrespective of where we are placed in the hierarchy today, are the leaders of tomorrow! And Critical Skills are more critical than we can ever imagine."

Numly is excited to announce these flagship Business School Courses from the following Universities in the Numly SKILLS'future 2021 Program:

<https://numly.io/company/numly-skillsfuture-2021-program/>
