Solar Integrated Roofing (OTC: \$SIRC) Reports Recent Acquisitions Drive Sustained Growth in Push Towards Near-Term Profitability

EL CAJON, CALIFORNIA, UNITED STATES, July 14, 2021 /EINPresswire.com/ -- Solar stock news from Investorideas.com Newswire and RenewableEnergyStocks.com - Solar

Integrated Roofing Corp. (OTC: SIRC), an integrated, single-source solar power and roofing systems installation company, announced today that its preliminary, unaudited sales for the month of June 2021 totaled a company record of over \$10.0 million.

The record sales month was driven by strong industry tailwinds supporting organic growth as well as the addition of revenue from recent acquisitions. Future Home Power sold over \$6.0 million during June demonstrating the effectiveness of their lead generation capabilities. Due to the acquisition of Future Home Power closing on June 9, 2021, not all sales will be recorded as Solar Integrated Roofing revenue. The Company expects the recent record-breaking expansion and momentum to continue in the months ahead as favorable seasonal trends develop and bring the Company to its short-term target of \$100 million in annual sales.

"The rapid pace of immediately accretive acquisitions during the year significantly increased our month-to-month sales figures," said David Massey, Chief Executive Officer of Solar Integrated Roofing Corp. "This milestone stands as a testament to the value inherent to our historical rollup strategy, as sales in acquired companies often outpaced expectations. In the near-term, with our most pressing acquisitions complete, we will turn our focus to optimizing profitability within the SIRC family of companies. I believe we are well positioned for continued operational execution in the strong seasonal months ahead, creating sustainable value for our shareholders over the long-term."
