“

If you can't step beyond and take a risk, then why would you expect a different picture than the generations prior!"

The runner up "Visual Dream" dropped June 5th and has accumulated 100K streams and 9K likes in the first month, the second visual highlights are "Language of Love" and "Dream never stops!" Dmt went to the northern tip of Michigan for filming with Keeping Tabs Media for Memorial weekend. With the release of "Language of Love" RoarJMcKay displayed his skills as a videographer once again!

Dmt is really staying grounded, The Psychedelic RockStar is finding his way up in the current Hip-

Hop scene. Lots of new exposure has put Dmt in the spotlight. With three current labels interested in capturing the young prospect's signature, DmtDream is in no rush. He is very much enjoying the independent route!

One of the many reasons Dmt is attracted to music is the fluent subconscious rhythm along the vibrational edge! It speaks to so many with zero words yet allowing similar energy to be felt! Music is a savior for most and for Dmt it is a very personal love felt through most of his life.

As a young individual, Dream had many attempts trying to figure his musical journey; at the age of 12 he played his first instrument, the electric guitar! Through middle school the cherry red Fender Stratocaster would come to notice the first signs of greatness from The Psychedelic RockStar! Coming into young adulthood, during high school days, he was a student athlete who highly ranked regionally and nationally. Those were some of the most important building blocks that gave Dmt the edge later in life.

Learning to work with others, he experienced strengths and weakness that helped sharpen his own skills. Being a student athlete also taught the young influencer how to be mentally strong while moving in the conscious! "To be a legendary player in life, you either step out of those constructs that individuals around you have built, (strictly for ego) or you find yourself in that dimensional phenomenon -- the 99% we call "middle class";" explains Dmt.

"If you can't step beyond and take a risk, then why would you expect a different picture than the generations prior! If you want the life of your dreams then you have to manifest your safety so you can afford the risk!," Dmt further elucidates.
