

# CoreStack Joins AWS ISV Accelerate Program

*CoreStack Joins AWS ISV Accelerate Program. CoreStack is also a recent recipient of the AWS Cloud Management Tools Competency status*

BELLEVUE, WA, UNITED STATES, July 15, 2021 /EINPresswire.com/ -- CoreStack, a global [cloud governance](#) provider that empowers enterprises to unleash the power of cloud by allowing nearly continuous and autonomous cloud governance at scale, today announced

today that it has been accepted into the Amazon Web Services (AWS) Independent Software Vendor (ISV) Accelerate Program, a co-sell program for AWS Partners who provide software solutions that run on or integrate with AWS. The program helps drive new business and accelerate sales cycles by connecting the participating ISVs with the AWS Sales organization.

As an outcome of our demonstrated customer successes and commitment to AWS, we are excited to deepen our relationship with AWS further through the AWS ISV Accelerate Program."

*Michael Pickens, Director, AWS Partner Development at CoreStack*

The AWS ISV Accelerate program allows CoreStack to meet customer needs through collaboration with the AWS Sales organization. Close collaboration with the AWS Sales team allows CoreStack to provide better outcomes to AWS customers, as AWS ISV Accelerate Partners and the AWS team work together.

CoreStack empowers enterprises to rapidly achieve nearly continuous and autonomous cloud governance at scale. Enterprises face significant cloud challenges, including unpredictable and unabated cloud costs, ever growing security risks, stringent regulatory compliance needs, and operational complexities. CoreStack helps enterprises

overcome these challenges by offering deeper cloud visibility, preventative governance guardrails, and automatic remediation.

"As an outcome of our demonstrated customer successes and commitment to AWS, we are excited to deepen our relationship with AWS further through the AWS ISV Accelerate Program," said Michael Pickens, Director, AWS Partner Development at CoreStack. "Our goal is to empower

our mutual customers to unleash the power of cloud on their terms. As part of the AWS ISV Accelerate Program, we will help our customers unleash the real benefits of the cloud with our holistic governance solutions."

Acceptance into the AWS ISV Accelerate Program comes on the heels of CoreStack's recent qualification for the AWS Cloud Management Tools Competency status, and a prior completion of an AWS Marketplace listing as a Cloud Compliance and Governance solution provider.

CoreStack has deep AWS expertise to deliver solutions seamlessly on AWS. CoreStack's multi-cloud governance solution empowers companies to enhance cloud operational efficiencies, optimize costs, and assure compliance with best practices such as AWS Well-Architected Framework and industry standards and regulations such as International Organization for Standardization (ISO), Federal Risk and Authorization Management Program (FedRAMP), National Institute of Standards Technology (NIST), Health Insurance Portability and Accountability Act (HIPAA), Payment Card Industry Data Security Standard (PCI DSS), Central Index Systems (CIS), & Centralized Authorization File (CAF). Built on cloud-native services, CoreStack supports AWS Management and Governance services to offer benefits such as unified visibility, deeper insights, rule-based automation, governance benchmarking, and seamless integration with other enterprise tools.

A satisfied CoreStack customer, Examity, that uses AWS for its online proctoring solutions, testifies CoreStack's innovative solutions and customer-centric focus.

"Examity's relentless focus on delivering unparalleled value to our customer experience powered by innovation and propelled by customer focus, keeps us in an ongoing journey of continuous positive transformation. As we were migrating to the AWS, we were looking for an equally innovative and customer-centric technology partner to solve the challenges of security and scale. CoreStack's AI-powered continuous and autonomous cloud governance was just that perfect solution in our digital transformation journey," said Shailu Tipparaju, Chief Technology Officer of Examity.
