Fueled by Verge (FBV)

Fueled by Verge was started by Danny Robertson, Derek Robertson, and Mark Wittenberg, in 2018. At 9 years old, Danny wanted to bring the awareness and usability to his peers in the motocross world. It has since become a worldwide movement, and foundation, to support athletes and bring awareness to their respective talents. At the same time, utilizing the Verge Currency blockchain and Currency community to further the awareness. Our mission is to build awareness of Verge Currency, as we harness the power of Bitcoin in a way that combines the speed of digital payments, but with the privacy of paying in cash.
