MEDFIELD, MA, USA, July 16, 2021 /EINPresswire.com/ -- Tech Advisors, a leading [technology solution provider](#) for small to mid-sized businesses,

“

We're honored to be included among this distinguished list of managed service providers, and look forward to continuing to climb the rankings in future years.”

Konrad Martin, CEO, Tech Advisors

founded by CPAs, has been named as one of the world's premier managed service providers in the prestigious 2021 Channel Futures MSP 501 rankings. Tech Advisors was ranked at #199.

Tech Advisors has been selected as one of the technology industry's top-performing providers of managed services by the editors of Channel Futures. For the past 15 years, MSPs from around the globe have submitted applications to be included on this prestigious and definitive listing. The Channel Futures MSP 501 survey examines organizational

performance based on annual sales, recurring revenue, profit margins, revenue mix, growth opportunities, innovation, technology solutions supported, and company and customer demographics.

Managed services providers that qualify for the list must pass a rigorous review conducted by the research team and editors of Channel Futures that rank applicants using a unique methodology that weighs financial performance according to long-term health and viability, commitment to recurring revenue and operational efficiency.

“We're honored to be included among this distinguished list of managed service providers, and look forward to continuing to climb the rankings in future years, as we continue to expand our services in ways that enable our clients to work more efficiently and more safely,” said Konrad Martin, CEO and co-founder of Tech Advisors.

This year's list attracted a [record number of applicants](#) and was one of the most competitive in the survey's history. Winners are being recognized on the Channel Futures website and will be honored at a special ceremony at the MSP Summit held Nov. 1-2 in Las Vegas as part of the

Channel Partners Conf. & Expo.

Since its inception, the MSP 501 has evolved from a competitive ranking into a vibrant group of innovators focused on high levels of customer satisfaction at small, medium, and large organizations in public and private sectors. Today, many of their services and technology offerings focus on growing customer needs in the areas of cloud, security, collaboration, and support of hybrid work forces.

"The 2021 Channel Futures MSP 501 winners are the highest-performing and most innovative IT providers in the industry today. They stand head and shoulders above the competition," said Robert DeMarzo, vice president of content for the Channel Futures and Channel Partners Conference & Expo division of Informa Tech Channels. "Coordinated by Channel Futures MSP 501 editor Allison Francis, this year's list was clearly one of the best ever on record."

Konrad Martin, CEO of Tech Advisors
