

Global Drugs For Immunotherapy Market Trends, Strategies, And Opportunities In The Drugs For Immunotherapy Market 2021

The Business Research Company's Drugs For Immunotherapy Global Market Report 2021: COVID-19 Growth And Change To 2030

LONDON, GREATER LONDON, UK, July 19, 2021 /EINPresswire.com/ --

According to the new market research report '[Drugs For Immunotherapy Global Market Report 2021: COVID-19](#)

[Growth](#) And Change To 2030' published by The Business Research Company, the global drugs for immunotherapy market is expected to grow from \$149.31 billion in 2020 to \$160.43 billion in 2021 at a compound annual growth rate (CAGR) of 7.4%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The drugs for immunotherapy market is expected to reach \$248.27 billion in 2025 at a CAGR of 11.5%. The immunotherapy drugs market is being driven by rising incidences of cancer globally. The major causes for most cancers include obesity, smoking, alcohol, improper eating habits.
