Freedom Farms Of Iowa for Freedom Farms of America

FFA of Iowa is the first of its kind featuring a Controlled Environment Agriculture ("CEA") that significantly improves productivity and returns on capital investment in acreage and equipment, compared to traditional land-based farming. CEA food production methodologies embrace "indoor farming" or "under-cover growing", and specifically utilize hydroponics and vertical farming. thus minimizing risk from weather events and seasonal growing processes.

The proven advantages of CEA's consistently demonstrate a clear advantage in production metrics, resource efficiency, responsiveness to consumer preferences and the reduction of a carbon footprint as a financeable business model enabled by technology. The ACTS Freedom Farms' ultimate objective is to create a 15-acre location utilizing standard horizontal growing systems that can utilize a hybrid system as proven by Crop King, to produce extended yield per acreage on a yearly basis while achieving \$15 - \$19.5 million annually on 15-acres.

CEA's reduces water consumption by as much as 99% and with technology-enabled growing methods, has a vastly reduced land footprint required for crop production. Produce is grown non-GMO, pesticide, herbicide, heavy metals, and bacterium free. Produce is locally grown and travels fewer miles reducing greenhouse gas emissions from food distribution. This structure is

in the form of an LLC and provides projected returns plus convertibility.

Real Estate - UK Based Health and Wellness Development Park

PEAK is an all year leisure, education, wellness and entertainment destination set in 300 acres of reclaimed parkland on the edge of the Peak District National Park and Chesterfield. PEAK is a gateway to the surrounding area focusing on sports, health, adventure, heritage, culture, and nature; a resort with leisure, business, and entertainment features, diverse hospitality and accommodation options; a campus for health & wellness, training, learning, and employment. The relocation takes a segment of the 2008 consented Medical Clinic, Spa, and Apart-Hotel building and condenses it into a smaller land area. This provides opportunities for later phases of the development to be delivered around the Health & Wellness Park where appropriate.

Smartlife - A Profitable Re-insurer in Walmart Locations (REGULATION A COMING SOON)

Smartlife is currently rolling out in Walmart locations throughout the US. SmartLife's value proposition is to save customers money and promote face-to-face relationships within the community by locating its agencies in local stores and bank branches. Thus, SmartLife operates traditional full-line insurance agencies within customer-convenient locations and builds its book of business through mainly face-to-face personal relationships which are strengthened every time customers visit their local store or bank.

Smartlife has created a re-insurance opportunity that provides steady yield through a re-insurance dividend earnings program. This will be a Regulation A program that will allow all investors to participate.
