

Dr. Marianne Cintron Releases First Book in New Children's Series

Replace your child's stress or anxiety from having a new sibling with joy, excitement and anticipation

GLENDORA, CALIF., USA, July 25, 2021 /EINPresswire.com/ -- [Dr. Marianne Cintron](#) is excited to announce the release of her first children's book, "I'm Going to Be a Big Brother!" from the voice of a young son. The book is the first in a series that will help children with their fears about a new baby joining the family.

Dr. Cintron is a dyslexia specialist, speaker and author. Education is Dr. Cintron's third career, spring boarded from subbing in her children's preschool to being a substitute teacher in a mental health hospital. She never dreamed of earning five degrees, with a calling to expose that "Dyslexia is a Trait of Genius!" She's been an educator for 22 years and a classroom teacher for 10. She earned a doctorate degree and two master's degrees.

"I never realized how scared kids could get about a new baby joining the family, and I am inspired to write a series of 12 children's books talking about a new baby coming into the home expressed in the voice of a child," Cintron said. "The first book is my son's voice. The next is in a big sister's voice, then twin siblings, an adopted son and a middle child. The first home example will be with a mom and dad and then to the single mom. I'd like to include multiple ethnicities, and have the books translated into multiple languages."

The series will not be ordinary books about a new baby. The first book shares information about the baby's size and weight inside the womb month by month. Every three months, Dr. Cintron shares what the baby is doing inside the mother's womb, allowing mom, dad and other children to be excited and anticipate the baby's arrival together.

"I'm Going to Be a Big Brother!" is now available for pre-order. For more information, visit

Book Series: Joy Not Fear!
Replacing Your Child's Stress or Anxiety from Having a New Sibling to One of Joy, Excitement, and Anticipation

First Book - I'm Going To Be A Big Brother!
Helping Your Young Son Transition with the Arrival of a New Baby

"For you created my inmost being, you knit me in my mother's womb. I praise you because I am fearfully and wonderfully made; your works are wonderful, I know that full well." Psalm 139:13-14

Have you ever had a child that was fearful of a new baby joining the family? I never realized how scared kids can get so I am impressed to write a series of children's books hoping to dispel any anxiety a young son may experience with the arrival of a new sibling. This first book is in the voice of a young boy. These aren't going to be ordinary books. They will speak about the baby's size and weight inside the mother's womb, month by month. I also share details of the baby's growth and movements between 5-8, 9-12, and 12-20 weeks. Mom, dad and son will all get excited as you prepare together for your baby's arrival!

Marianne Cintron is the middle child of seven children! She has been married to Will for 32 years. She has been an educator for 22 years and is a Dyslexia Specialist. She is an author of several books on the topic of dyslexia, and developer of a music app and reading program to help dyslexic children to read. She is also an International Speaker, YouTube and Podcast host. The Cintrons are a blended family with three children, now all young adults. They all currently reside in California.
