The dried peas market consists of sales of dried peas by entities (organizations, sole traders, and partnerships) that are engaged in the production of dried peas. Dried peas, also known as field peas, when dried are used in food preparation such as pasta, cereals, and soups. Dried peas are considered a very good source of potassium, cholesterol-lowering fiber, and two B-Vitamins, protein, and contain almost no fat. They help lower cholesterol, maintain blood sugar levels, and lower high blood pressure.

Trends In The Global Dried Peas Market

In November 2020, Ingredion Inc., a US-based ingredient solutions company acquired Verdient Foods for an undisclosed amount. The acquisition will enable Ingredion Inc. to accelerate net sales growth, expand manufacturing capabilities, and collaborate with customers to meet the rising demand for plant-based foods. Verdient Foods is a Canada-based company that produces plant-based proteins derived by producing peas, lentils, faba beans, and other sources.
