

TrueTeleHealth Announces Marketplace Partner Status Allowing Integration with PointClickCare's Platform

Partnership to make telemedicine easy and take focus back to patient care.

CHICAGO, ILLINOIS, USA, July 22, 2021 /EINPresswire.com/ -- [TrueTeleHealth](#), a product of TeleHealth Innovations, LLC, is proud to announce that it is now integrated with [PointClickCare](#), the leading cloud-based EHR software vendor for the senior care market.

TrueTeleHealth was created to improve access and delivery of virtual healthcare. The TrueTeleHealth Complete Solution is a comprehensive, yet easy to use telehealth platform consisting of a medical cart, tablet, HIPAA compliant software, and FDA approved medical devices. Physician created, TrueTeleHealth improves patient access by allowing providers to quickly and safely evaluate and treat patients from a distance.

TrueTeleHealth benefits long-term and post acute care facilities in many ways:

- Turn-key and affordable telehealth solution
- 24/7 provider care that improves clinical outcomes
- Reduction of unnecessary hospitalizations
- Improvement of patient/family/provider satisfaction
- Improvement of facility reputation driving referrals
- Increase in facility revenues

Using the APIs available through the PointClickCare Marketplace Partner Program, TrueTeleHealth has completed its integration with the PointClickCare platform. This allows for direct communication between the platforms making the telehealth consultation process more user-friendly and complete. Nurses are now able to connect with a telehealth provider within seconds allowing more time to be given back to resident care.

"Through our integration with PointClickCare, receiving and delivering virtual medical care has never been easier", says Dr. [Aleks Radovic](#), MD, creator of TrueTeleHealth. "Not only can facility staff connect with remote providers more quickly, providers themselves now have access to comprehensive and vital patient information, necessary for high quality medical care".

"We have been using the TrueTeleHealth platform for the last 12 months and it has significantly

helped reduce our hospitalization rates. Now, after integrating into the PointClickCare platform, the telehealth consultation process is even more streamlined and has been very well received by our nurses and doctors!" - Rani Stutz, Regional Director of Operations, Legacy Healthcare, LLC

Additional information regarding the integration can be found on the PointClickCare Marketplace – an online platform that enables customers to easily evaluate authorized third-party technology partners. Partners listed on the PointClickCare Marketplace offer integrated apps and/or services that are designed to be quickly deployed and work seamlessly with providers' existing workflows.

"The PointClickCare Marketplace offers the widest range of integrated solutions available to the senior care market," says Chris Beekman, Marketplace Director, PointClickCare. "Our partnership with TrueTeleHealth is further testament to our continually growing partner network and ecosystem, and the wealth of possibilities it provides our customers to extend their technology capabilities."
