

The Mesothelioma Options Help Center of Wyoming Endorses The Steinberg Law Group as the Top Mesothelioma Law Firm

The Mesothelioma Options Help Center of Wyoming Endorses The Steinberg Law Group as the Top Mesothelioma Law Firm - Experience/Resources/Results

CHEYENNE, WYOMING, USA, July 21, 2021 /EINPresswire.com/ -- The [Mesothelioma](#) Options Help Center of Wyoming is dedicated to providing the best possible legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related lung cancer. Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from The [Steinberg](#) Law Group.

The Mesothelioma Options Help Center of Wyoming has endorsed The Steinberg Law Group because of their vast experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, The Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of

Being exposed to and inhaling just one fiber of asbestos is enough to cause mesothelioma and/or other asbestos-related illnesses to develop decades later.

A mixture of asbestos and cement was used to produce roof shingles for decades throughout the twentieth century.

asbestos include power plant workers, maritime workers, industrial workers, plumbers, pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2020 were exposed decades ago.

Wyoming's reliance on the oil, power generation, mining, vermiculite and chemical industries is a major cause for concern for residents of the state. Additionally, Wyoming has twelve known asbestos occurrences, which may explain why Wyoming's mesothelioma mortality rate is one of the highest in the nation. Natrona and Laramie counties have experienced the most issues with asbestos-related illnesses while Casper Mountain and Laramie Mountain were sites of commercial asbestos mining until the early 1920s.

Known jobsites, companies and locations with asbestos exposure in Wyoming include, but are not limited to, W.R. Grace, Casper Mountain deposit, Laramie Mountain deposit, Brown Bear deposit, Smith Creek deposit, Beaver Creek deposit, Fire King deposit, Frontier Refining Company, Frontier Supply Company, Amoco Oil Company, Husky Oil Company, Investors Oil Company, White Eagle Oil Corporation, Sinclair Oil Company, Sinclair Refining Company, Consumer Oil & Refining Company, Fargo Oil Company, Continental Oil Company, Empire State Oil Company, Mutual Oil Company, Pan American Petroleum Corporation, Colorado Oil & Gas, Standard Oil Company, Cambria Fuel Company,

Pipefitters are at a higher risk of exposure to asbestos than most due to the hands-on nature of the job.
