

# Watkins Construction & Roofing of Jackson Mississippi Adds Roof Washing & Treatment to Services Lineup

*Watkins Construction & Roofing based in Mississippi announced today they have launched exclusively to Mississippi roof washing & treatment services.*

JACKSON, MISSISSIPPI, UNITED STATES, July 22, 2021 /EINPresswire.com/ -- Watkins Construction & Roofing, a reputable [Jackson](#), Mississippi-based roofing contractor, would like to make all Mississippi homeowners aware of

the positive benefits of washing & treating their roofing systems with the Roof-A-Cide roof wash & treatment system. Watkins Construction & Roofing states that their customers are amazed at how much better their roof looks once the [roof washing](#) & treatment has been performed. The company also claims that the benefits of regular roof treatment go well beyond that of making

“

We wanted to add roof washing for a long time but waited until we found a system like Roof-A-Cide that was safe for the environment, kids, pets & the home.”

*Michael Dier*

any roof’s appearance look much improved. Watkins Construction & Roofing has the only roof washing & treatment services that are guaranteed to keep a roof algae-free for two full years and are EPA approved. Watkins Construction & Roofing’s exclusive roof washing & treatment services are explained in more detail on their website which can be found at [nomoreroofstains.com](#)

Company owner, Michael Dier, says, “We wanted to add roof washing for a long time but waited until we found a system like Roof-A-Cide that was safe for the environment,

kids, pets & the home.” Dier added that when they wash & treat someone’s roof using their exclusive and time-tested Roof-A-Cide system, that getting a roof to look new again is not the only goal that they have in mind. That’s because by removing unwanted roof contaminants such as mold and mildew they are helping to preserve and protect someone’s roofing system. Contaminates left on any roof for too long can imbed themselves in tiles, asphalt shingles, and other roofing materials and start to break these materials down and dry them out. Oftentimes

these contaminants will also lead to the appearance of ugly stains & streaks on a roof. Dier pointed out that periodic roof treatment will help protect and extend the life of any roofing material when it's performed bi-annually. He says that they are always happy to discuss this service more thoroughly with someone and the best way to do that is for them to fill out the form that's found on the contact us page of their website at [nomoreroofstains.com](http://nomoreroofstains.com).
