

# Kisan Kinzoku Joins BuyChemJapan

*Kisan Kinzoku has entered into a product promotion partnership with BuyChemJapan Corporation.*

OSAKA CITY, OSAKA PREFECTURE,  
JAPAN, July 22, 2021 /

EINPresswire.com/ -- We are pleased to announce that Kisan Kinzoku (President: Tetsuya Tako) has joined the growing number of Japanese chemical manufacturers who have decided to join the roster of companies working with the chemical marketplace "BuyChemJapan", a marketplace

created and operated by the Osaka, Japan headquartered BuyChemJapan Corporation . (President: Masa Oguchi). Kisan Kinzoku will be using the service to promote their tellurium ingot and tellurium dioxide.

Kisan Kinzoku has entered into a product promotion partnership with BuyChemJapan Corporation

Kisan Kinzoku Chemicals Co., Ltd. was established in 1959 and, in the more than half century since then, has evolved into a leading supplier of rare materials for use in cutting-edge industries. They are especially celebrated for their production of tellurium compounds, being, as they are, one of the world's largest producers and highly competitive both in Japan and internationally. Under this new agreement, buyers around the world can connect with Kisan Kinzoku Chemicals Co., Ltd and its products through BuyChemJapan.

BuyChemJapan is a start-up spun off from Daishin Co., Ltd, a trading company specializing in chemicals. With a deep understanding of the needs and business practices of both domestic and foreign manufacturers and buyers within the chemical industry, BuyChemJapan can actively promote Japanese competitive chemicals to overseas buyers through its well-received free online marketplace, which specializes in introducing chemical products and promoting brand recognition. In a marketplace shaped by the COVID-19 pandemic, companies can no longer carry out traditional sales activities, so the time to shift to digital, online activities has come.

The marketplace has been designed from the ground up to help simplify the process of introducing the demands of buyers to leading Japanese chemical manufacturers.

Buyers can...

Search for the required chemical via a comprehensive set of options and definitions.  
Make direct contact with the manufacturer with one click; there is no need to deal with intermediaries.

Request a sample, price quotation or make an order directly from the manufacturer.

Make a fully informed purchasing decision through use of a function which allows for direct comparison of chemical qualities and manufacturers costs (available post-launch).

Buy with complete confidence as the marketplace is only partnered with manufacturers who produce chemicals at their own factories.

Any business currently being undertaken can be re-routed through BuyChemJapan, benefiting from the additional transparency and convenience the service provides.

BuyChemJapan is actively searching for and partnering with a rising number of chemical manufacturers and will launch its marketplace in August 2021 to optimize transactions for both manufacturers and buyers. Watch this space!

If you are an international chemical buyer who wants to negotiate directly with Japanese chemical manufacturers rather than go through troublesome, and expensive, intermediaries, then this is the service for you!
