

3D Animation Artist HoodTRONIK Addresses New Trends in Music Videos

This talented 3D and virtual music artist has worked on videos for a number of well-known stars.

CINCINNATI, OHIO, UNITED STATES, July 23, 2021 /EINPresswire.com/ --

[HoodTRONIK](#), a 3D artist with years of experience in the music industry, is gaining recognition for himself in high circles. With a focus on 3D animation, immersive virtual reality experiences, and augmented reality, he is attracting the attention of more than a few well-known music artists, having worked on videos for Cardi B, Meg The Stallion, Saweetie, and Pop Smoke, among others.

HoodTRONIK was formerly a member of the hip hop group, 'Tanya Morgan,' which was featured in XXL Magazine's Freshman Class of 2009, along with several other renowned publications and websites. HoodTRONIK started learning video editing, visual effects, and graphic design while performing with the group, and created a few of their early videos.

His videos were so widely acclaimed that he started doing videos for other artists in the music industry, and discovered there was quite a demand for his services. He says that his own background in music has helped.

"My visuals incorporate current trends across social media and urban music, so I'm able to connect with a diverse young demographic online."

HoodTRONIK adds that he's noticed an industry trend toward virtual reality, augmented reality and digital media due to COVID.

"The pandemic has resulted in limited transportation and the inability to organize live action

music videos and commercials. For those reasons, there has been a spike in the necessity for 3D animation. As the pandemic rages on and new variants continue to develop, I really don't see this trend changing. There's a real demand for my type of work!"
