

CSTM HAUS Reveals Groundbreaking Concept for the First Floating Lifestyle Club, ArkHAUS Miami

This exclusive social club and coworking space is on track to make history as it affords a novel luxury experience to like-minded professionals

MIAMI, FLORIDA, UNITED STATES, July 23, 2021 /EINPresswire.com/ -- [CSTM HAUS](#) is thrilled to share plans for its brand new location, [ArkHAUS](#), as the world's first-ever floating members club. An elite social club that supports coworking, entertainment, and networking, CSTM HAUS has already taken root in New York City and Miami Beach with current talk of a global expansion. With its modular layout allowing for the chartering of a single vessel, ArkHAUS will act as the brand's latest and most exciting rendition yet.

ArkHAUS is a multi-story, floating villa comprised of spacious outdoor decks and opulent rooftop lounges. In the center of the structure between the four vessels is a protected pool to complete the ultimate "work hard, play hard" escape. Although the vessels appear to float on water, they are actually situated slightly above the water in order to eliminate the impact of waves. Pushing the boundaries with fully electric propulsion and solar roof deck awnings, the innovative structure is a physical manifestation of the CSTM HAUS values which sit at the intersection of people and technology.

In an effort to redefine the current understanding of social clubs, CSTM HAUS locations are
