

# Ben's Garage Door's Plan to Stockpile Garage Door Springs and Panels Pays Off for Customers

*The company foresaw a shortage in garage door parts at the beginning of the global pandemic.*

DENVER, COLORADO, UNITED STATES, July 25, 2021 /EINPresswire.com/ -- [Ben's Garage Door](#) is pleased to announce it made the right move when the company stockpiled [garage door springs](#) and panels as the COVID-19 pandemic swept across the world.

Ben's Garage Door is the leading garage door company in Denver, Colorado. The company provides complete garage door services, ranging from installation, repair, and garage door maintenance. Ben's Garage Door is renowned throughout the Denver area and boasts hundreds of 5-star reviews on various platforms.

In the company's latest news, Ben's Garage Door is informing clients in Denver that, despite the worldwide shortage of garage door parts due to the ongoing pandemic, the company is thriving. This is a result of the company stocking up on garage door springs and door panels two years ago.

"At the beginning of the Coronavirus pandemic, I had a feeling there would be an upcoming lack of garage door springs and door panels due to supply and demand issues," says founder of Ben's

Garage Door, Ben Vainer. "We were saving for a rainy day and, well, that rainy day has come. Due to the increasing need for garage door springs, we are very glad we stopped selling garage door springs to suppliers and other companies many months ago, as we can now provide our clients with the service they desperately need."

Today, Ben's Garage Door is one of the only companies in the United States that has enough springs in stock for its clients, making it one of the most sought-after garage door companies in the nation.

Ben's Garage Door offers a wide array of garage door services, such as:

- Garage door education
- Garage door spring replacement
- Full garage door replacement
- Custom garage door replacement
- Emergency repair
- Garage door maintenance
- And more!
