

Fintel Short Squeeze Explorer Identifies Short Squeeze Opportunities for Retail Investors

Fintel's short interest data identifies candidates for the week of July 25

NEW YORK, UNITED STATES, July 26, 2021 /EINPresswire.com/ -- [Fintel.io](https://fintel.io), a provider of advanced research tools for data-driven investors, has developed a mathematical model that provides investors and traders with data that helps quantify the short squeeze risk for a company. This model takes into account a number of factors that contribute to short squeezes, including relative short interest, borrow fee rates, trading volume, and others.

The [Short Squeeze Explorer](#) provides a leaderboard ranking of companies with the highest Short Squeeze Score so traders can easily identify companies with the highest likelihood. For traders

who want to find short squeeze opportunities before they happen, the Short Squeeze Explorer is an ideal tool.

Below are notable Short Squeeze candidates as of July 25, 2021 at 6:30pm EST:

- * SPRT - Support.com, Inc. (96.85)
- * LEXX - Lexaria Bioscience Corp (96.05)
- * BLIN - Bridgeline Digital Inc. (95.29)
- * CRTD - Creatd Inc. (95.28)
- * XELA - Exela Technologies Inc. (94.91)

Short Squeeze Scores scoring model ranges from 0 to 100, with 100 being most likely, relative to its peers.

The Short Squeeze Explorer also compiles data like Short Interest % Float, Change in Volume, Change in Price, and Borrow Fee Rate into an easy-to-use leaderboard for investors to reference when making decisions.
