## [About Creator](#)

Duelitaire is the story of one developer and his quest for creating an immersive multiplayer

experience. Being someone who's always ambitious to discover new ideas, I was inspired to create my own card game that delivers style, entertainment, and investment opportunity.

I was a local electrician and started my own business in 2019. Everything was running smoothly but deep down inside, I knew that something was missing and that was none other than my passion to create games. I decided to follow my passion that was suppressed under my overwhelming struggles in life. I realized that it's the right time to avail myself of this opportunity for becoming an indie and to turn my childhood dream into a reality.

In all honesty, I didn't know what would happen if this game failed but what I knew was that no matter which new journey I chose, there would still be a chance of failure. So, to attain success, I have to take the chance, embrace the failure, and stand again stronger than before with the hope that there is always more than one way of getting somewhere.

In the beginning, I was working on a game by myself. It went well and even better than my expectations. That was the time when I decided to take this game to the next level. By combining traditional gameplay mechanics with cutting-edge technology, I have created Duelitaire, an entirely innovative card game that anyone can freely enjoy. I have invested years of knowledge and creativity in developing this project and my team has poured its heart and soul into its creation to leave a lasting mark on gaming history. All we need now is your generous contribution to complete this project that has been pending for almost 2 years. We need your support as backers to complete our work and hire some professional graphic designers to excel at our highest potential.

It's about doing your best to rise again after every fall and learn from each mistake. All you have to do is to keep going until you achieve that success you've been striving for all along. This is what our company aims to do for giving back to society.
