

Weil-McLain is Winner in Prestigious ACHR News Dealer Design Awards

Company's ECO® Tec Recognized as the Top Boiler Design for 2021

BURR RIDGE, ILLINOIS, USA, July 28, 2021 /EINPresswire.com/ -- [Weil-McLain](#) was recognized for excellence in product design and efficiency in the 18th annual Dealer Design Awards Program sponsored by The Air Conditioning, Heating & Refrigeration Newsmagazine. An independent panel of contractors acted as judges in the contest that had 117 entries.

The company's ECO® Tec premium residential gas boiler was the silver winner in the HVAC High Efficiency Residential Equipment product category – the top award presented to any boiler manufacturer for 2021. The [ACHR News](#) is the leading trade magazine in the heating, ventilating, air conditioning, and refrigeration industries.

NEWS Publisher Mike Murphy stated, "These awards give us a unique opportunity to recognize the outstanding research and development efforts that go into many of the products serving the HVACR industry and the awards issue gives our readers an opportunity to read about innovative installation and service solutions."

"Weil-McLain is dedicated to producing hydronic heating systems at the forefront of innovation that meet and exceed the demands of our customers," said Mike Boyd, product manager with Weil-McLain. "This prestigious honor for our [ECO Tec](#) boiler is a testament to our outstanding product design team. We are delighted to be recognized in the high efficiency category and for having the top boiler product of the year."

The 95% AFUE ECO Tec boiler meets nearly all residential needs including multi-zone and combi applications. It features a long-lasting fire tube heat exchanger and is available in combi versions with response time and domestic hot water (DHW) output designed to meet the demanding
