[Team Building](#) announced today the release of its [Online Masterclass](#) on Building Exceptional Team Culture.

“In this Online Masterclass, you’ll learn how to get your people to work together more effectively – because successful teamwork is a symptom of great team culture,” said Sean Glaze, team culture expert, team building keynote speaker, leadership author, and spokesperson for Great Results Team Building.

Glaze, a member of the National Speakers Association (NSA), the Southeast Association of Facilitators (SEAF), and the Association for Experiential Education (AEE), explained that there are a variety of things people will learn in the Online Masterclass team culture videos. A few of those things include:

- How to create an environment that inspires more engaged teamwork without the frustration of scrambling for ideas on Google.
- Why strategy is always supported or sabotaged by culture, and what you can do to improve results – even if you’ve never led a team before.
- What is the No. 1 most important team leadership trait, and how you can level-up immediately.
- The three things you don’t want to keep doing and use the easy solution that will accelerate your speed and shorten your path.

- The five vital areas of a leader’s playbook that will supercharge (or sabotage) a high-performing team culture.

- How to build Rapid Teamwork in your organization by following a proven sequence of step-by-step instructions and activities,

The release of Great Results Team Building’s Online Masterclass on Building Exceptional Team Culture could prove to have perfect timing. According to a Gallup study, the manager accounts for at least 70 percent of the variance in employee engagement.

“Take a step to improve your team – learn how to fix your broken team culture today,” Glaze said.
