The Colors Inside of Me

“

Parents will love *The Colors Inside of Me* by AmyLee Westervelt, it is not only vibrantly illustrated, but also a wonderful story about self-acceptance & inner beauty. It will be a household favorite!”

Stacy Padula, award-winning author

“I wrote this book so every child could see how easy it can be to reach inside and celebrate all of the colors and uniqueness that exists inside all of us,” said Westervelt. “As a former teacher, I know how important it is for children to see this kind of reflection and discovery in books that they can relate to.”

The Colors Inside of Me is the perfect book for any young readers, but especially children struggling with self-love or self-acceptance. Much like the color spectrum of a rainbow, every person exists within a spectrum, and every one of us is beautiful. AmyLee hopes that readers come away from the book knowing that there is so much more to a person

than what you see from the outside.
