

Global Non-Animal Alternatives Testing Market Trends, Strategies, And Opportunities In The Market 2021-2030

The Business Research Company's Non-Animal Alternatives Testing Global Market Report 2021: COVID-19 Growth And Change

LONDON, GREATER LONDON, UK,
August 2, 2021 /EINPresswire.com/ --
According to the new market research report 'Non-Animal Alternatives Testing Global Market Report 2021: COVID-19

Growth And Change To 2030' published by The Business Research Company, the global [non-animal alternatives testing market](#) is expected to grow from \$1.11 billion in 2020 to \$1.23 billion in 2021 at a compound annual growth rate (CAGR) of 10.8%. The growth is mainly due to the companies resuming their operations and adapting to the new normal while recovering from the COVID-19 impact, which had earlier led to restrictive containment measures involving social distancing, remote working, and the closure of commercial activities that resulted in operational challenges. The animal testing alternatives market is expected to reach \$1.8 billion in 2025 at a CAGR of 10%. The support from the government and non-governmental organizations boosts the growth of the non-animal testing market.
