

BidPrime Launches Document Text Search of Over 50 Million Pages of Government Bid Documents

AUSTIN, TX, UNITED STATES, August 5, 2021 /EINPresswire.com/ -- BidPrime Inc. today announced that it has launched [DocSearch](#), a new Premium Data feature that searches deep into its collection of active and historical bid specification documents. DocSearch will be included as a part of BidPrime's suite of new Premium Data plans.

[DocSearch offers clients the ability to perform quick searches](#) of over 50 million indexed documents from bids going back over 7 years. The robust technology available in DocSearch will help BidPrime's clients identify even more opportunities, will assist them in finding specific brand names and relevant line items within documents, reduce time wasted scanning long documents through highlighted text search, and provide instant access to public PDF and Doc files. Clients will take advantage of extensive time savings by previewing, searching, scanning, and downloading the applicable bid documents.

“

DocSearch gives greater depth to reveal active and historical opportunities in a way that agency-released data -- classification codes, contract titles, and vague descriptions cannot provide.”

*Stephen Hetzel, Chief
Operating Officer*

Josh Schwartzbeck, BidPrime's CTO, oversaw the release of this new service. Schwartzbeck said that "This new service is entirely unique in the state, local, and educational contract intelligence market. We've understood that our customers value their access to bid documents that are often difficult to find. This solution leverages our existing

vast coverage of State and Municipal bid documents to provide a detailed viewpoint of most government opportunities.”

According to Stephen Hetzel, BidPrime's COO, DocSearch gives greater depth to reveal active and historical opportunities in a way that agency-released data -- classification codes, contract titles, and vague descriptions cannot provide. Hetzel said that "we've also integrated an extremely efficient search experience that allows our clients to quickly search within a specific

opportunity's documents for one or more words, returning rich text highlights that is so much easier and faster than downloading a document, opening the file, and manually searching.

This release is a part of BidPrime's new enhanced suite of Premium Data Plans that accompany its existing array of comprehensive bid and analytic products. As part of this new platform, customers receive direct access to bids using bid [Docs on Demand](#), Dedicated Account Managers, extensive customization, and more.

For more information on BidPrime, or how your business can take advantage of DocSearch, visit bidprime.com or call toll-free (888) 808-5356.

The image shows two screenshots of the DocSearch interface. The top screenshot displays a search results table with columns for 'TITLE' and 'ENTITY'. The table lists several records, with the fourth record, 'Records Management System (RMS) and Computer Aided Dispatch (CAD)', highlighted in green. A red arrow points to this record. Below the table is a 'Document Matches' pop-up window showing keywords like 'national, incident, nibrs' and snippets of text. The bottom screenshot shows a search for 'bond' with search results for 'RFB - Abatement Services.pdf'. A red arrow points to the search bar. The search results include a list of documents and a preview of the selected document, which contains text about 'PERFORMANCE AND PAYMENT BONDS'.
