

# TopDevelopers.co publishes a list of Finest Blockchain Development Companies for July 2021

*List of Finest Blockchain Developers declared by TopDevelopers.co after analyzing blockchain worldwide qualitatively and cost-efficiently.*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, August 9, 2021

/EINPresswire.com/ -- Business runs on information. The quicker it's received and the more accurate it is, the better. Blockchain is ideal for delivering that information because it provides instant, shared and completely transparent information stored on an immutable ledger that can be accessed only by network members. A blockchain network can track orders, payments, accounts, production, and much more. Since the members share a single view of the truth, you can see all details of a transaction end to end, giving you new efficiencies and opportunities. This is the reason [leading web development companies worldwide](#) are resorting to blockchain for digitizing their businesses.

Blockchain is decentralized when it comes to storing and accessing data making the whole system incredibly secure – because, unlike a centralized database, there's no one single point of entry to access information. Blockchain also has extensive applications across many industries and as a result, the [top software development service providers](#) make use of blockchain technology optimally. It is already being used to facilitate identity management, smart contracts, supply chain analysis, and much more.

Many blockchain developers in the market can deliver good IT solutions but it can get weary for the service seekers to find one, amidst so many and the one which is best suited for their needs.

Blockchain is the biggest opportunity set we can think of over the next decade or so.”

*Bob Greifeld, Nasdaq Chief Executive*
