

# The Mesothelioma Options Help Center of California Endorses The Steinberg Law Group as the Best Mesothelioma Law Firm

*The Mesothelioma Options Help Center of California Endorses The Steinberg Law Group as the Best Mesothelioma Law Firm - Experience/Resources/Results*

SAN DIEGO, CALIFORNIA, USA, August 4, 2021 /EINPresswire.com/ -- The [Mesothelioma](#) Options Help Center of California is dedicated to providing the best possible legal and medical assistance to those stricken with mesothelioma or [asbestos](#)-related lung cancer. Anyone wishing to discuss their legal and/or medical options should call (888) 891-2200 to speak directly with an attorney from The [Steinberg](#) Law Group.

The Mesothelioma Options Help Center of California has endorsed The Steinberg Law Group because of their vast experience in handling mesothelioma and other asbestos-related cases. With offices in New York, California and Texas, The Steinberg Law Group has a national footprint that helps win the best possible financial compensation for clients.

Typically, asbestos exposure will have occurred sometime between the 1950s and the 1980s. Some of the most prevalent professions that encountered large quantities of asbestos include power plant workers, maritime workers, industrial workers, plumbers,

California is home to some of the largest naturally occurring asbestos deposits in the world.

Pipe welders who worked on asbestos pipes are at a significantly higher risk of developing an asbestos-related disease.

pipefitters, electricians, mechanics, machinists, miners, railroad workers and construction workers, to name a few. Since the latency period for mesothelioma patients is approximately 40 years, most people diagnosed with mesothelioma or asbestos-related lung cancer in 2021 were exposed decades ago.

California ranks 1st in the nation in asbestos-related deaths in addition to containing some of the largest natural asbestos deposits in the world (natural occurring asbestos has been found in 45 out of 58 California counties). California was also home to the last asbestos operation in the United States, which mined a large chrysotile deposit in the state until it closed in 2002. Californians who worked in the shipping, mining, oil, power plant and military industries are at an elevated risk of developing an asbestos-related disease.

Jobsites and locations with known asbestos exposure in California include, but are not limited to, Coalinga, CA, El Dorado Hills, CA, Clear Creek Management Area, South Bay Asbestos Area, Industrial Waste Processing, Purity Oil Sales, Inc., Foster Wheeler Corporation, Union Carbide Corporation, Asbestos Corporation, San Onofre Nuclear Generating Station, Burbank Powerhouse, Valley Powerhouse, Haynes Powerhouse, Scattergood Powerhouse, El Centro Powerhouse, Carlsbad Powerhouse, Contra Costa Power Plant, Chula Vista Power Plant, El Segundo Power Plant, Edison Power Plant, Edison Steam Plant, Moss Landing Power Plant, South Bay Power Plant, Shell Oil Absorption Plant, Belmont Pump Station,

The Steinberg Law Group is affiliated with doctors around the country who specialize in treating asbestos-related illnesses.

The Steinberg Law Group has the experiences, resources and results to obtain the maximum financial compensation for victims of asbestos exposure.
