CHICAGO, ILLINOIS, UNITED STATES , August 5, 2021 /EINPresswire.com/ -- [Ilantus](#), a leader in the Identity and Access Management industry wins the award for “Most Valuable Technical Innovation” at the Golden Feather Awards in collaboration with Mid Day. They won this prestigious award for their SaaS-delivered [Converged IAM](#) solution, [Compact Identity](#).

Ilantus wins the award for Most Valuable Technical Innovation at the Golden Feather Awards

Ilantus has been a leading name in the IAM industry for over 20 years now. They have strived to provide best-in-class IAM solutions throughout the years. The advancements in the Identity and

Access Management domain have brought in several changes. A prominent one is how the domain is fragmented into several categories of Access Management, Identity Governance and Administration, and Privileged Access Management. Ilantus understood how this predicament causes several challenges and complications like vendor management, complicated and expensive solutions, low ROI, poor user adoption, endless integrations, and more.

Ilantus brought in the concept of Converged IAM which was applauded by analysts and customers alike. Their

“

Throughout the history of 20 years, Ilantus has been known for innovation. This prestigious award is one more milestone in our journey of innovation.”

Binod Singh, Chairman and President, Ilantus Technologies

flagship solution, Compact Identity, is a true SaaS-delivered Converged IAM solution that provides Access Management, Identity Governance and Administration, and Privileged Access

Management in one platform.

Here is what Ilantus Chairman and President, Binod Singh has to say about this award, "Throughout the history of 20 years, Ilantus has been known for innovation. Our multiple patents, constant recognition from analysts and customers have been a testimony to this. This prestigious award is one more milestone in our journey of innovation."
