Spreading awareness of blockchain technology and Verge Currency

“

We are very excited to see these young superstars competing at the Nationals. Having highly talented individuals bring awareness to digital currency and blockchain technology is inspiring.”

*Mark Wittenberg, Co-Founder, Fueled by Verge*

Winning an impressive 11 Alberta Provincial Championships doesn't come easy, though Wyatt made it look easy with an impressive winning resume full of 1-1-1-1-1

With a resume full of racing history from the young age of 5, Wyatt is starting to make waves in the motocross community and with his winning attitude on and off the track is exactly what Fueled By Verge is looking for. We are not only paying attention to professional athletes but we are following young amateur athletes who are dedicated to their respective sport. We want to support them now and in the future as they move up the ranks. The young

generation is fast advancing and are the generation that will understand Digital Currency and help push awareness for Verge Currency.

[Danny \(#141\) is from Calgary, Alberta, Canada.](#) Although he is only 12 years old, he has an extraordinary 8 years of racing experience. He can be found training regularly, and has the potential to become a legend in the motocross world.

Danny is supported / sponsored by Blackfoot Motosports, MX4LIFE, KTM Canada, FoxRacing Canada, Pro-Action Canada, Asterisk USA, Atlas, Lamson Motorsports, Pro Circuit, Sosa Original, M7 Designs, and JDS Racing XTEAM.

Danny is one of our youngest Cryptocurrency community members who believes in security and the Verge vision, and wants to help the younger generation acknowledge cryptocurrencies by covering his bike with the Verge brand, and educating his peers about blockchain technology. He does not get any compensation for doing so, but sees it as his contribution to bringing awareness and adoption - he was the initial inspiration for the Fueled by Verge movement, and is a Co-Founder of FbV.
