

Tejy Inc. Qualifies to Bid on GSA Scheduling

Tejy Inc. serving AEC professionals for the last 15 years has now been qualified to bid on GSA (General Services Administration) scheduling.

WASHINGTON DC, DISTRICT OF COLUMBIA , USA, August 9, 2021 /EINPresswire.com/ -- Tejy Inc. serving the Architectural, Engineering and Construction professionals for the last 15 years has now been qualified to bid on GSA (General Services Administration) scheduling.

The image is a promotional graphic for Tejy Inc. It features a dark background with a circular inset showing an American flag flying in front of a brick building. The Tejy Inc. logo is in the top left corner. In the top right, there is a 'GSA Schedule' logo. The main text reads 'Tejy Inc. Qualifies to Bid on GSA Scheduling Available'. Below this, there is a 'KNOW MORE' button with the phone number '202-465-4830' and a small icon of a person wearing a hard hat. At the bottom, there are social media icons for Instagram, Facebook, and Twitter, along with the website 'www.tejy.com' and email 'info@tejy.com'. The title 'Tejy Inc. Qualifies to Bid on GSA Scheduling' is written at the bottom of the graphic.

Sukh Singh, the Vice President of Tejy Inc. is delighted that his company has qualified for federal grants and schedules. He mentioned – “The Multiple Award Schedule and Federal Supply Schedule would help us to sign long-term contracts on commercial projects for federal, state and local governments. We can now access over 11 million commercial product supplies and services. Further, our BIM engineers, architects and consultants would get an opportunity to modernize the buying and selling experience of clients.”

“

The Multiple Award Schedule and Federal Supply Schedule would help us to sign long-term contracts on commercial projects for federal, state and local governments.”

Sukh Singh

Senior Project Manager of Tejy Inc. stated – “USA Government Bodies are very particular about selecting vendors and GSA wants the best for federal organizations.

We are satisfied that despite the meticulous and time-consuming process, Tejy team has succeeded in getting the eligibility to trade on GSA. Bidding on federal construction projects would help us to gain expertise in government projects.”

Sukh provided a detailed account of the types of GSA construction projects for which Tejy can bid. He named various [design build projects](#) like:

- Office buildings
- Educational buildings
- Sports Facilities

- Medical Buildings
- Transport Infrastructure such as roads, bridges, etc.

BIM Consultants of Tejgy Inc. remarked – “Understanding these practices help a construction firm to get a competitive edge. To win GSA Construction Bids, we are acquainted with different methods of project bidding like:

- Design-Bid-Build
- Design Build
- Construction Manager at Risk”

Regarding design-bid-build process, an Architectural Engineer of Tejgy Inc. commented – “Design-Bid-Build is a popular technique, where the government first chooses and appoints a designer for developing plans. Then, a bid for the project is published as IFB (Invitation for Bid) or RFP (Request for Proposal) solicitations, and the contractor, who wins the bid has to build the project.

The benefits of the GSA design bid build process are:

- Enhanced control over the project for federal buyers
- Better protection against unfair construction bids
- Easy estimation of project costs through preliminary developed specifications”

A Senior Architect of Tejgy Inc. specified – “Design-Build contract comprises both the design and construction simultaneously. Here, the contractor outsources some parts of the project to the subcontractors and the general contractors cooperate with [architectural firms](#) to bid on the solicitation.

Methods of Construction Project Bidding

The advantages of GSA design build process are:

- Streamlined construction process
- Reduced costs compared to Design Bid Build
- No conflicts, as single contractor is appointed for every stage of the project”

Architectural BIM Engineer of Tejy Inc. pointed out – “Construction Manager at Risk is another bidding process, where the government appoints a construction manager, accountable for the design and the construction of the project at a Guaranteed Maximum Price. The technique integrates the features of both design bid build and design bid build processes.

Advantages of the CMAR bidding process include:

- Controlled overall costs and risk management
- Faster project completion due to coordinated design and construction
- Improved project quality”

Do you want to get complete control of your construction management process? Hire one of the competent construction managers of Tejy Inc. to plan, coordinate and supervise your construction projects from the start to finish. To book an appointment with [Tejy Inc. construction management firm in USA](#), contact 202-465-4830 or info@tejy.com.
