

Reviva Labs delivers younger-looking skin with its new Advanced Retinol Serum

Reviva's Retinol Serum will improve the appearance of wrinkles & fine lines, boosts collagen, and speeds cell turnover for a younger-looking complexion.

HADDONFIELD, NEW JERSEY, UNITED STATES, August 10, 2021 /EINPresswire.com/ -- [Reviva Labs'](#) Advanced [Retinol Serum](#) includes a combination of ingredients that help enhance and increase the absorption of this Vitamin A derivative while minimizing sensitivities and irritation common to other retinoids. This advanced blend of Vitamin E, Dimethylmethoxy Chromanol, and Retinol along with gentle occlusives douse your skin with a potent cocktail of [anti-aging](#) antioxidants.

Retinol, discovered decades ago, improves the skin on many levels, as it's effective and active in the dermis and epidermis. Retinol is shown to increase cell-turnover while helping to boost collagen production to plump and firm the skin's appearance. Retinol's well documented anti-aging effects are why it's one of the few globally recognized anti-aging ingredients. This

powerful antioxidant reduces the appearance of fine lines and wrinkles while simultaneously improving the appearance of uneven skin tone – and it helps improve blemished skin too. “The dramatic broad effect of retinol is why it's one of the world's go to anti-aging ingredients,” stated Bill Levins, President of Reviva Labs.

The potency and effectiveness of Retinol has the potential to cause skin sensitivities and reactions. And while this usually occurs at higher concentrations, some users react even at lower doses. Reviva's Advanced Retinol Serum was specifically formulated to avoid these typical skin reactions while maintaining efficacy and results. “We

wanted to create a Retinol formula true to our philosophy, one that balanced efficacy while it minimizes reactivity," said Bill Levins. Reviva's uncomplicated formulation delivers a powerful, yet gentle, dose of 0.03% Retinol alongside a short list of ingredients meant to alleviate potential irritation.
