all segments of the supply chain from shipper to receiver to include assets, labor, automation, and financials. PCS supports all hardware and IT systems for their Network Operation Centers and in-vehicle telemetry systems.

This relationship allows LogistiWerx to meet the highest level of 24/7 service performance utilizing PCS’ collaborative framework and network of certified professionals. PCS offers a multi-disciplined, integrated IT design team experienced in network architecture, business continuity, cybersecurity, and mobility systems that guide

LogistiWerx as it expands its global operations to include Land, Air, Sea, Rail, off-road, human-powered, and electric vehicles.

“We are pleased to support LogistiWerx as they exemplify the diversity and leading-edge commitment to IT with which we built PCS,” said Anthony Mongeluzo, CEO of PCS LLC. “Our work with LogistiWerx allows their company to concentrate their resources on their core capabilities and not be fragmented with dynamically changing network operations and cyber-attacks.”

“We selected PCS for their excellent service level performance and adaptability to meet our stringent technology requirements. PCS not only provides the 24/7 support we need, but they are an integral part of the design and build-out of our Network Operation Centers, said Kaydon Stanzione, Chief Executive Officer at LogistiWerx. “PCS’ proven success and their understanding of our complex transformative logistics business model was a major selection process for our business as we continue to grow our world-class operations which include North America, parts of Africa, India, and Thailand.”
