

# Mobile Concrete Mixer Market Anticipated to Reach \$11,812.2 Million by 2030- Exclusive Research Report by AMR

*The mobile concrete mixer market is majorly driven by an increase in investments by governments, majorly in developing counties*

PORTLAND, OR, UNITED STATES,  
August 11, 2021 /EINPresswire.com/ --

[Mobile concrete mixers](#) are moving trucks or trailers that are used to prepare the concrete by mixing cement, sand, water, gravel, and occasionally binding adhesives on the construction site. Concrete mixing drums mounted on a truck chassis are self-driven, whereas drums mounted on trailer chassis need to be pulled by attaching it to another vehicle.

“Mobile concrete mixer market by capacity, product type, chassis type, and region: global opportunity analysis and industry forecast, 2021–2030,” the mobile concrete mixer market size was valued at \$6,755.0 million in 2020, and is expected to reach \$ 11,812.2 million by 2030, registering a CAGR of 5.6% from 2021 to 2030.

Major driving factors of the mobile concrete mixer market are extensive increase in investments by governments, majorly in developing countries on constructing new infrastructures such as roads, dams, tunnels, residential & commercial buildings, and other public infrastructures. In addition, ease of transportation of concrete in remote areas where roads are not well built or construction sites that have no proper access drives the mobile concrete mixer market.
