And that is exactly what we have done by adding such a unique company in such a unique industry"

A New World/ A New Approach

ABOUT MINDSET PHARMA INC.-  
(CSE:MSET) (FSE:9DF) (OTCQB:MSSTF)  
Mindset Pharma is a Toronto-based drug discovery business focused on creating novel and patentable psychedelic compounds for the treatment of neurological and psychiatric disorders. Founded in 2019 by domain experts in drug development, medicinal chemistry and capital markets, Mindset is assembling a proprietary library of transformative psychedelic intellectual property designed to address chronic

neuropsychiatric disorders efficiently and safely. Classic psychedelics will likely be approved for medical use in the near future, however, they are not optimized as pharmaceuticals and cannot be patented as they are in the public domain . Mindset is applying innovative medicinal chemistry to create a pipeline of optimized psychedelic medications with improved efficacy and

reduced toxicity. Mindset has developed a patent-pending chemical synthesis process to address a pressing need for scalable, pharmaceutical grade, low-cost psilocybin.
