

# SanitGrasp – The Patented Public Hands-Free Door Handle

*SanitGrasp, Internationally patented hands-free door handle, is the leading Germ-Free public restroom door handle.*

ALPHARETTA, GA, USA, August 13, 2021 /EINPresswire.com/ -- SanitGrasp, the Internationally patented hands-free door handle, is the leading Germ-Free public restroom door handle. The SanitGrasp handle is in the shape of a "J", thereby allowing a person to open a door with their closed fist or wrist. The SanitGrasp has been identified as a product that improves the health in public facilities since its introduction in 2005.

The SanitGrasp has gained a wide and diverse customer base. Matthew Fulkerson, inventor of the SanitGrasp and owner of Fulkerson LLC stated "You would be surprised at our customer base! We have the SanitGrasp installed in National grocery store chains, Fortune 500 retailers, restaurants, Universities, schools, casinos, corporate offices, churches, basically any public facility the list goes on and on... Within one shopping trip you are likely to see the SanitGrasp in multiple locations". Sales

are skyrocketing due to the current Worldwide demands "We have received a huge increase in orders domestically and Internationally. The demand is significant, and we are increasing manufacturing to meet the increased demand" stated Matthew Fulkerson. Sales last year set a

record, due to the [Delta Variance](#) sales are once again on the rise “We always felt this product answered so many health concerns. The SanitGrasp is engineered and built like no other door pull handle. It was just one of the obvious items missing in a public restroom. No one wants to grab that filthy door pull handle, the product is a no brainer. Now we are getting orders by customers in the thousands not the hundreds. We will answer the demand!” stated Fulkerson.

The SanitGrasp is engineered to easily remove an existing door handle and use the same screw holes to add the SanitGrasp in place of the old door handle. What a simple solution to the old problem, how do I exit the restroom without touching that nasty door handle? Companies have found the answer, the SanitGrasp. “We have been asked by many customers why our product is not the shelf at a Big Box chain. That is an avenue we are currently exploring this avenue aggressively.” Stated Matthew Fulkerson.
