

Huawei Partnered up with TheSports to Be Their Leading Sports Data Provider

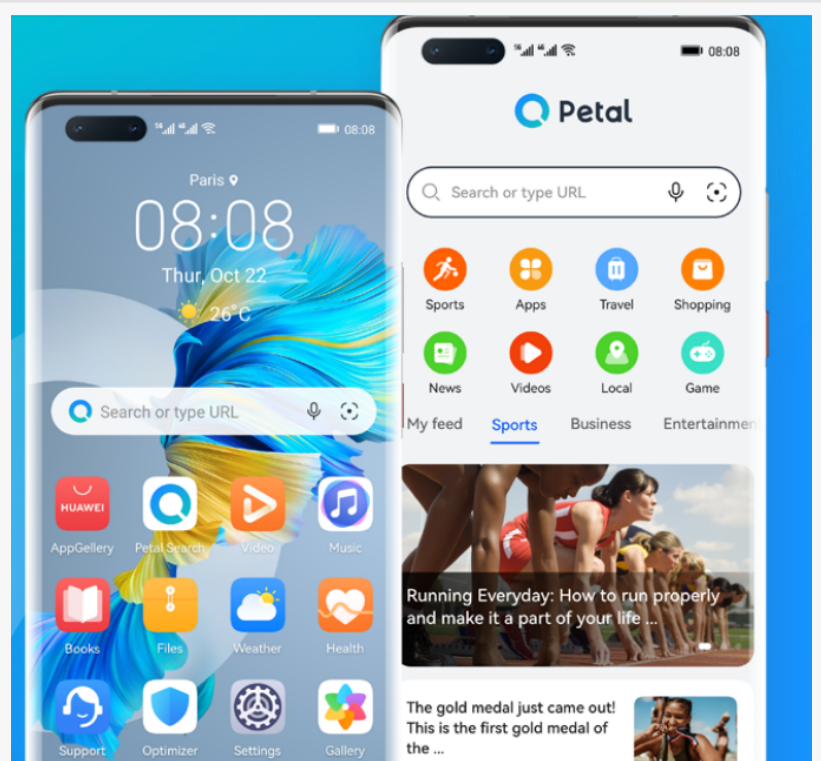

With data significantly becoming valuable, the partnership between Huawei and TheSports is ground-breaking.

UK, August 16, 2021 /

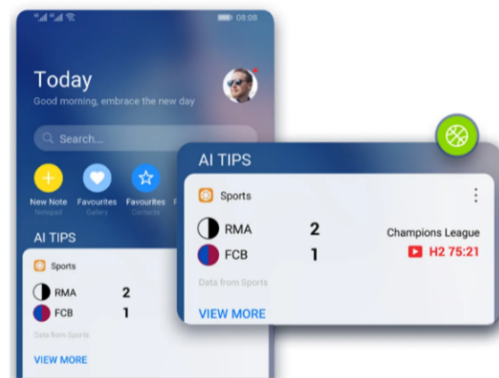

EINPresswire.com/ -- With data significantly becoming valuable, the partnership between Huawei and TheSports is ground-breaking. Huawei has partnered up with TheSports to be their leading sports data provider.

In the realm of the digital world, a massive bulk of the audience relies on Information and Communication technologies to keep themselves updated. Huawei is one of the oldest and leading global providers of information and communications technology (ICT) since 1987. Huawei works with the mission of bringing digital to every person. It operates in over 170 countries and regions, serving more than three billion people around the world.

Through open collaboration, Huawei tends to help promote and protect unified global standards, establish industry and ecosystem alliances, support international open-source projects, and drive breakthroughs in critical technologies. With artificial technology gaining a grip, Huawei has also introduced a virtual personal assistant that is all powered up by AI. It

quick access to the sports data through petal search
