

Cable Matters Launches 8K USB-C® Hub With HDMI® Support

Cable Matters USB-C Hub is one of the first to support 4K 120Hz and 8K over HDMI

SOUTHBOROUGH, MA, UNITED STATES,
August 24, 2021 /EINPresswire.com/ --

[Cable Matters](#)®, an industry-leading connectivity solutions supplier, today launched one of the first USB-C® hubs with support for 4K 120Hz and 8K video as specified in HDMI® 2.1.

“

The USB-C Multiport Adapter is one of the first USB-C hubs with support for 4K 120Hz and 8K video over HDMI. It is the perfect productivity accessory for gamers and mobile workers.”

*Jeff Jiang, President and CEO
of Cable Matters Inc.*

The [Cable Matters USB-C® Multiport Adapter](#) transforms a single USB-C port into a video and peripheral powerhouse. The portable docking station instantly adds a Gigabit Ethernet port, two 5Gbps USB-A ports, and an HDMI port to a USB-C-enabled device. The hub can drive a 4K 120Hz television or an 8K monitor and supports USB-C Power Delivery for pass-through host charging of up to 100W.

“The USB-C Multiport Adapter is one of the first USB-C hubs with support for 4K 120Hz and 8K video over HDMI,” said Cable Matters President and CEO Jeff Jiang. “It is the perfect productivity accessory for gamers and mobile workers.”

As display technology rapidly advances, tech enthusiasts have struggled with driving the latest ultra-high-resolution displays and televisions. Gamers and content creators wishing to connect their laptops to 4K 120Hz televisions relied on single-port USB-C to HDMI adapters because most existing hubs only support 4K 30Hz. This reduces the utility and versatility of USB-C and increases costs.

The Cable Matters USB-C dock overcomes this limitation by providing a one-adapter solution for 4K 120Hz and 8K video, 5Gbps USB peripherals, and gigabit networking all in one. Now, gamers can connect lag-free gigabit Ethernet, USB video game controllers, and a 4K 120Hz television or 8K monitor into a single USB-C port. The multiport adapter is the ultimate productivity and entertainment accessory for work and play over USB-C. It is the perfect choice for [business](#)

[workers in hybrid workplaces](#) as well.

About Cable Matters

Cable Matters, with headquarters in Southborough, Massachusetts, offers a complete line of cables, adapters, docking stations and networking products for the home, office, and data center. Cable Matters offers first-class quality products, backed by exceptional customer service, at an affordable price.
